

Blackhawk™ Precast Release 50

SELECTION & SPECIFICATION DATA

Solvent-based Release Agent **Type**

Blackhawk Precast Release 50 is a chemically active, fast Description drying release agent specially engineered to positively

prevent bonding of the concrete to forms in precast and

shop applications.

· Contains no diesel, waxes or silicones **Features**

Improves release of formwork

Sprays easily in cold temperatures

Reduces concrete buildup on formwork

· Reduces cleaning of formwork

Protects formwork against rust

Leaves no residue, stain or discoloration

For precast and shop use only Uses

Colorless Liquid Color

VOC Value(s) <350 g/L

Blackhawk Precast Release 50 should not be used as a Limitations

bond breaker in tilt up construction. Solvent sensitive plastic, rubber, or foam forms or form liners may react adversely to solvents in Blackhawk Precast Release 50. For those materials, consult ErgonArmor. Do not use MDO or absorbent wood form surfaces. Consult manufacturer for

product recommendation.

SUBSTRATES & SURFACE PREPARATION

All surfaces must be clean and free from debris All

and loose scale material or anything that may interfere with adhesion or act as a bond breaker

with the desired substrate.

MIXING & THINNING

No mixing required. Ready to use as is. Mixing

Do not thin. **Thinning**

Mineral spirits Cleanup
